GORGEOUS NEW BEGONIAS

A TREAT FOR YOUR GARDEN

OR FOR POT CULTURE INDOORS

Camellia Flowered Begonia

These new Begonias are so easy to grow that even a child can produce magical results with them. They are among the most gorgeous of all flowers for growing indoors in pots, or outdoors in a shady nook, and although they are so easy to grow, they surpass the most exquisite orchids in extravagant loveliness. They may also be grown outdoors during the summer and then moved indoors for winter flowering.

The mammoth size bulbs which I am offering usually cost three to four times as much as the smaller sizes generally sold, but I am furnishing these larger bulbs at an attractive introductory price in order to interest the greatest number of people and to give the purchaser the maximum in flowering results.

This Collection Consists of the Following:

CRISPA—A brilliant red with the edges of the petals profusely ruffled and frilled.

CARNATION FLOWERED BEGONIAS—These fully double flowers are just like superb carnations, but of a heavy wax-like substance that adds to the beauty of this type. The colors are salmon, rose and orange.

CAMELLIA FLOWERED BEGONIAS—This double flowered type is much different from the Carnation Begonia, being similar to the rarest Camellias grown in tropical climates, more colorful than the finest rose, having satiny wax-like substance. The colors in this group are apricot, yellow and salmon-pink. See illustration.

MARGINATA—This type is a single bi-color type, with the flowers one color, but with a beautifully ruffled border of another color. They are the ultimate in loveliness. There are several color combinations in this group.

FRAGRANT BEGONIA—Something new in Begonias now offered for the first time and the outstanding Begonia of the year. The large single flowers of deep pink are produced in the greatest profusion. The flowers being borne well above the foliage makes it a most attractive potted plant. The fragrance is distinctive and pleasing. See illustration of potted plant.

"Extravaganza" Begonia Collection

This collection will consist of one of the sensational new Fragrant Begonias, one dark red Crispa Begonia, one Marginata and one of each of the colors mentioned in the Double Carnation and Camellia Flowered types, a total of 9 mammoth size bulbs for \$2.75 Postpaid.

If wanted separately bagged and labeled add 25c. Order as many collections as you wish at this price.

HYBRID TIGRIDIAS - 8 FOR \$1.00; 20 FOR \$2.00 POSTPAID

The vivid Hybrid Tigridias, or Mexican Tiger Flower (also known as the shell flower) are native to old Mexico, and these new hybrids I am offering are the finest I have ever been able to offer, both as to color range and size and quality of bulbs. In fact I believe they are the finest in the world regardless of price. The color illustration on page 7 of my catalogue gives but a slight idea of their great beauty. The colors range from brilliant scarlet and crimson tones to soft

pinks, and from deep orange to soft yellow. In some the colors are solid and in others there is harmonious blending of colors. In some the throat markings are the same color as the balance of the flower, and in others they are in striking contrast. There are also pure whites and whites flecked with pink or soft yellow, or white with brilliant colored throats. Altogether there is a bewildering array of colors, all handsome.
